## KEYNOTE SESSION

### **FIRE SERVICE CORNERSTONES OF SUCCESS: TRAINING AND TEAMWORK AND WHY IT MATTERS ON GAME DAY**

Join FDNY Chief of Training Frank Leeb as he discusses the importance of training in his Keynote Presentation "Fire Service Cornerstones of Success: Training and Teamwork and Why it Matters on Game Day." During his presentation, Chief Leeb will share insights and lessons learned on incidents where training and teamwork were essential for successful outcomes. With dedication to predicting, preventing and preparing for the possible, Chief Leeb emphasizes how passion for the job paired with continual improvement in skills, critical thinking, and knowledge are the keys to a winning mindset on the fireground.

#### **ABOUT FRANK LEEB, CHIEF OF TRAINING, FDNY**

Frank Leeb is a Deputy Assistant Chief in the Fire Department of New York (FDNY). He is the Acting Chief of Training. Frank has been a member of the FDNY since 1992 and a member of the East Farmingdale Fire Department since 1983 (Long Island NY). He holds a BS degree in Fire Service Administration from SUNY and a Master's degree in Security Studies from the Naval Postgraduate School, Center for Homeland Defense and Security (CHDS).

## BIG ROOM SESSION

**Wednesday, September 28 | 5:15 pm - 6:30 pm**

### **BIG ROOM SESSION:**

#### **THE BRONX TWIN PARK FIRE: STRATEGIC AND TACTICAL CONSIDERATIONS FOR LARGE SCALE INCIDENTS**

**Frank Leeb, FDNY Chief of Training**

Using the leadership lessons learned and reinforced at the January 2022 Twin Park Fire in the Bronx, NY, this presentation will focus on strategies and tactics employed and those to consider when responding to large-scale incidents. The Twin Parks fire resulted in more than 70 victims and required the adaptation of FDNY standard strategies and tactics, which resulted in many lives saved. The speaker was the command chief for this fire and arrived on scene quickly at this escalating incident and assisted the initial incident commander. His first-hand knowledge will equip attendees with the strategic and tactical considerations necessary to stay ahead of a quickly expanding and evolving incident. Every town in America has the potential of a large-scale incident that can produce multiple victims and quickly overwhelm and outstrip responding resources. Are you prepared?

## SPECIAL SESSION

**Friday, September 28 | 3:00 pm - 5:00 pm**

### **SPECIAL SESSION: THE FIRE FAMILY**

**Todd Edwards - Founder/Lead Instructor, Fire Life  
Training Associates**

**Kathy Edwards - CEO, Fire Life Training Associates**

This highly interactive, two-hour program delves deep into the foundation of marriage and family within the fire service. The program focuses on the reality that there exists two fire families. One is the station and department, and the other is home, spouse, and children. More often than not, these two "families" fight for time and attention, and while the firefighter is caught in the middle, the spouse and children live in the unique world of growing up in what is often the secondary role to the fire department, and station/shift life. The program also focuses on understanding what a true advantage there is to have both families for the firefighter, spouse, and children, and to consider several principles when navigating this unique life, including the importance of having a blueprint in the marriage, merging the two families socially, communication and compromise, the importance of PTO and the role humor plays.
