

LEADERSHIP SYMPOSIUM

FIRE DISTRICTS ASSOCIATION OF CALIFORNIA

2022 FDAC LEADERSHIP ACADEMY

A leadership conference designed for emerging leaders in the fire service to develop the essential skills needed to be successful today and for years to come.

Why you should send your staff to this valuable leadership training:

1. FDAC provides a \$50 per a person group discount when sending multiple employees from the same Fire District!
2. Meeting and collaborating with other Fire District professionals to share experiences and build robust leadership.
3. Networking with industry partners in the fire service to further your education and support your Fire District.

If those three items are not enough, remind your staff that continuing education is empowering for the fire service and mention some specific sessions that will be important to engage in at the event (see back).
